

Electa Live for MAC OS X

This is the Electa Live Virtual Classroom plug-in for **MAC OS** versions OS X 10.8 and above.

The plug-in is needed for both students and session hosts who want to attend or host live sessions. To attend live sessions or play recorded classes this plugin has to be installed on the user computer.

Setup file for all users

The below link is suitable for both students and teachers. It does not require computer admin credentials.

[Download](#)

After downloading the application, please run it on the computer to set it up. Once the set up is completed you can visit our testing room to make sure everything is set up.
