A moderator can allow an attendee to share his/her desktop.

To do so, while in a live session right-click on the respective name in the Attendees list and choose "Start Remote Screen Sharing" from the drop-down menu.

Numb	er of Attendees - 2 🛛 🌣 🤗	Scaled 100% Default
	🕑 🚇 YES NO 🗶 🔿	New
À	Private Session Note	
T	Watch Web Cam from User	
	Demote the user to Participant	/ /
	Start Remote Screen Sharing	A
	Give Remote Screen Sharing Control	
	Deprive Remote Screen Sharing Control	
	Enable the Microphone	
	Disable the Microphone	Ωπ 📇
	Remote Audio Volume Control	
	Allow Whiteboard Control	
Rais	Deprive Whiteboard Control	
Тех	Remove from Session	

The Remote Screen sharing request window will pop-up on the attendee's screen. Attendee can accept the sharing by clicking on the Yes, Start Screen Sharing Now button.

Screen Sharing Request	
Please Read and Make Your Choice.	
A session moderator has requested your permission to start a rescient sharing session on your computer.	mote
During this session your screen will be broadcasted live in the vi reverse and encoded.	tual
You can stop the screen sharing session at any time by clicking t Stop button that will appear in the top right corner of your scree	

Now your user will be able to share his/her desktop with the other attendees as you usually do.

Please note that: You can demote the user at any time by following the same steps.
