

Color Coating Calendar Events and Course Catalog Entries

You may want to distinguish certain calendar events or certain courses in your catalog by making them appear in a slightly different way.

You can do so by applying a color coat on these entries. Color coated events and courses appear with a different color in the calendars or the course catalogs.

To specify a color for a live sessions use the "color coating" check box on the Options page when creating your live event.

New Live Event

Event Location & Permissions Options

The event is open

5 min. prior start time

Password (Optional)

Visibility

Hide from calendar Show in Published Calendars

Color Coat

Distinguish the event with a color in calendar

Previous Next Apply

Similarly color can be applied to course catalog entries. You can do so at the time of setting up your course. The color coat option is located under the "Additional Course Settings" area.
