Electa Live version 8.2 is the newest Electa Live version now available for Windows 10 users. This updated classroom app can be downloaded and installed from the following page: https://support.e-lecta.com/Downloads/Download/50003

Along with the new updated app which is recommended for all students and trainers we will continue to support the old 8.0 version so that users who feel comfortable with it can still use it.

Important: to benefit the full features of the new Electa Live app you need to have a Windows 10 version with latest updates installed. You can check that from Settings > System > About. Make sure you have at least version 1093 of Windows installed.

What Has Been Changed and Updated in V. 8.2.

Improved Comprehensive Interface

- Brand new easier to navigate and more intuitive interface
