

Manage Student Profile Accessibility

This article explains how to

- Limit the access of student profiles
- Unblock profiles that are blocked by the system
- Set profile expiry date
- Change the profile access type

You can apply certain access restrictions to your students' profiles. To do so click on **Student Management -> Student Profiles**. Search your student database for the student you would like to manage and click the red options button next to it. Then click on **Accessibility Options**.

Manage Profiles

	+	Export	Import	Set Group	Set Status	Delete	Search for...
	Full Name	Main Group	Username	E-mail address			
	George Smith	<Unassigned Users>	gsmith	gsmith@yopmail.com			
	Georges Nicholas L.	IGCSE English Language Y2	Georges1	billeade@gmail.com			
	Jason N.	IGCSE Maths	my-student-email@yopmail.com	my-student-email@yopmail.com			
	Joan S. 	IGCSE Maths	JoanS	my-student-email@yopmail.com			
	John Smith	<Unassigned Users>	jsmith.a	jsmith@yopmail.com			
	Michael Skordis	IGCSE Maths	Michael2	my-student-email@yopmail.com			
	Stacey Johnson	IGCSE Chemistry Y2	Stacey1	my-student-email@yopmail.com			

- User Files
- Update Profile
- Accessibility Options**
- Set a Parent Moderator
- Update Group
- Attendance Records
- Delete Profile

On the Accessibility dialog you can specify or change the following information:

Accessibility Options For George Smith

Please select the appropriate options and click Save

Account Type
Student

Status
Active

Expirable Account

Expires On
01/12/2016

Invisible Attendee

Apply **Cancel**

Manage Student Profile Accessibility

The profile type - from student to teacher.

This option is only available for unlimited teacher configurations. For single teacher configurations or for configurations with a fixed number of teachers this option is not available.

The user access status - Active or Inactive. Active accounts can log into the website. Inactive accounts are prevented from logging into the website.

Please note that users who try to log into their account and insert a wrong password multiple times are automatically blocked by the system. Such user accounts on which we detect multiple unsuccessful logon attempts are automatically deactivated to protect the user privacy and personal data. Administrators can unlock such accounts by setting their status back to **Active**.

Expiry date on the user profile - if set up the user will be able to access their profile only before the expiry date is reached. After that no access will be given. This is only useful if you have temporary students.

Invisible Live Session Attendee - if this option is set up on a user account this user can attend live sessions incognito with a view only access. You can read more about [invisible attendees here](#).

To apply the changes on the profile click the Apply button.
