# API 3.0 - Deleting Live Sessions

This API is used if you want to delete a live session.

Call: **<API_URL>/Event/Delete**

Supported HTML Methods: **HTTP-GET / HTTP-POST**

Communications Level: **Server-to-Server**

Result: **XML**

**Parameters**:

**CID** - Integer, Required, Account Id, Sample: 12345

**Token** - String, Required, Sample: 9C467079-FE3B-45C5-8AA5-9726397081AA

A valid session token obtain from a previous call to the Authentication namespace for the above Account Id.

**EventId** - Integer, Required, Sample: 2231112

The number identifier of the event to be deleted. This is not the event Access Code.

It is the internal number identifier which is obtained when creating a live event from an API call.

Events that are created from your calendar can also be deleted by passing the respective event Id.

## Sample Call

https://api30.school-network.net/event/delete?token=1d10e97b-9c9f-4e9d-9f98-5c9861e4dc65&cid=1&ev

The result is an XML set with a response code and a description. If the function fails an error code and an error description is returned. Similarly, upon success, a "Success" message is returned.
