

How to lock users (students and teachers) belonging to a group from logging on

In certain cases you may need to prevent all users belonging to a certain group from logging into the portal. Such an example is students who have graduated (alumni) or students with temporary access suspension.

To do so visit

Student Management > Student Groups.

Click on the **red options button** next to the group you want to disable

Click Modify

Uncheck the option "**Users from this group can log on**"

Save the changes

Id

Group Name

Description

Users from this group can log on
** unless an individual logon restriction is applied*
** This will affect only users who have this as a main group*

Apply

How to lock users (students and teachers) belonging to a group from logging on

This restriction will apply to students and teachers whose main group matches the respective group. This restriction does not apply to administrators belonging to this group.
